

Healthy Living Tips Magazine Page

1. You will create a persuasive expository magazine page about healthy living (inform/convince the reader of something).
2. Your magazine page will have 4 different healthy living tips.
3. Each healthy living tip is to be written as a persuasive expository paragraph (inform/convince reader of something).
4. In order to write the most informative/detailed/convincing paragraphs, you are required to follow the writing process & research organizer (as we did for our fast food paragraph – which counts as one of your four paragraphs).
5. Remember to use the peer review forms when revising (with Mr. D as well).
6. Refer to the research/writing rubrics to keep on track.
7. Use a magazine page exemplar to create a good copy.
8. The Final Copy is due before Tri- Conferences.
